Websight - Jay

What this committee contributes to the fellowship
The A.R.T.S. the website serves two primary purposes: (1) to introduce us to the world at large, and (2) to provide useful, relevant data about us in a convenient, reliable form. Our mandate is to fulfill these expectations on the current website as well as to create a second-generation site from the ground up for use in the future.
We want to make it as easy as possible for the world to know about us and to bring our message to "the artists who still suffers", as well as providing up-to-date meeting and donation information to the fellowship in general.

What actions this committee is planning to take to address the group conscience of the Fellowship
We have created a spreadsheet of recommendations based on members' feedback and a page-by-page analysis of the site by our committee members. It will be presented to the Board by the end of the year.

What this committee hopes to achieve before WSC
Implementation of our suggestions where feasible.

What this committee hopes to achieve if voted in at WSC
A permanent means of connecting the fellowship with the website and streamlining areas of interaction (e.g., meetings and donations).

What sorts of skills this committee is looking for in potential members

Jay M. - jay27@jaymarkmedia.com (Put ARTS somewhere in the Subject line)

A bit about me…
I'm a recording engineer by trade, and an occasional musician, songwriter, poet, card tricker and partridge in a pear tree. Computers have been a hobby of mine since the first home digital computer came out in 1974. I've been an ARTS member since around 1995 and I built the first ARTS website. I am also one of the founders of the Monday Beginners Meeting In New York City and I am the contact person for that meeting. In the past I have been a Vice-Chair of the Board, Corporate Treasurer, and have held a number of other service positions in the Fellowship.

Take one meeting a day and call me in the morning.
